

KING'S MATHS SCHOOL

OUTREACH NEWSLETTER

SPRING TERM

2026

This term, we ran 34 weekly Outreach sessions, for students in our local area, between Y7-Y12.

We had two excellent trips to Maths World, for 100 of our GCSE+ Maths and Physics students. MathsWorld is an interactive mathematics discovery centre, designed to make maths engaging for all ages.

MathsWorld features over 40 hands-on exhibits aimed at demonstrating the beauty and real-world application of mathematics in a, playful, and accessible way.

"I've been enjoying the programme a lot, learning exciting things and seeing Maths through new lenses, like games." Peter, Y9

This term we also hosted our first Outreach careers event. The evening was a great success, with impressive speakers from different backgrounds including Maths, Robotics, Medical Engineering, Finance and even Visual Effects.

We had an attendance of up to 200 students from the local area between Y9 and Y13. Pictured below, Dr Baljinder Mankoo speaking to Outreach students about Biomedical and Life Sciences at KCL.

"GCSE+ Maths is challenging and has pushed me to do better in Maths, to help prepare me for my future"
- Aseel, Y9
