

STEP UP TO A LEVELS SUMMER SCHOOL

Step up to A level Summer School 2023
(Maths, Physics and Further Maths)

Are you a year 11 student planning on taking maths and physics in year 12? KCLMS community's Step Up to A Levels Summer School is designed to give you a taste of what you can expect from sixth form level courses. Each day you will delve into the wonders of Maths, Physics, and Further Maths.

During the sessions you will discover some of the 'big ideas' within these subjects, begin to sharpen the key skills that will help you be successful in the courses, and put you in the best position to excel in the next academic year!

You will attend lectures with guest speakers, participate in practical experiments in the university's labs, collaborate on problem solving, and meet other students who are just as keen about maths as you!

Dates: Monday 10 July to Friday 14 July
(Note that for many schools this is during term time).

Time: Each day will run from approximately 9.15am until 3.15pm

Location: King's College London campus.

"I was able to enhance my knowledge and further challenge myself as well as learning from the people around me."

The summer school is completely free, and lunch will be provided!
